

June 30, 2010

Dear St. Mary's Parents:

I hope your summer continues to provide opportunities to relax and refresh. School has been very quiet this summer, and we enjoy the occasional visits from families taking AR tests. I love the change of pace that summer brings, but our school building seems unbearably quiet without children. I am already looking forward to a new year beginning in August.

As we prepare for the year ahead, it is time to gather important information on all of our students. In an effort to streamline this process, all parent forms are now available on our website, www.smeds.org (within the "Parents" tab, please see "Forms and Information 2010-2011"), as well as in First Class (within the "Summer Information" folder, please see "2010-2011 Required Forms" and "2010-2011 Information and Miscellaneous Forms"). Parents are asked to open each form, save to your computer, then complete and submit each family or child's form via email. Most of the materials are self-explanatory. Please take time to read carefully and complete accurately. If you have any questions, our staff is on duty most days until 3:00 p.m. throughout the summer. All completed forms should be submitted to Ms. Johnna Henry at Parent.Forms@smeds.org.

I will be writing again later this summer to introduce the new members of our faculty and to share additional information for the year ahead. Enrollment is ahead of our projections and we continue to receive admissions inquiries and tour prospective families. I thank all of our current families who have recommended St. Mary's to their friends and neighbors.

Best wishes for a safe and refreshing summer. Go Saints!

Sincerely,

Scott D. Laird
Headmaster
